

BIM 5TH Lab Question

1. Create a Gantt chart using Excel.
2. Draw a Data Flow diagram up to level 1 for Online Shopping System.
3. Draw a USE CASE Diagram for Library Management System.
4. Draw a USE CASE Diagram of Bank System
5. Draw an Activity Diagram for the scenario in which customer is ordering the food of his/her choice using online websites.
6. Draw a SEQUENCE Diagram for library management system.
7. Draw a SEQUENCE Diagram for ATM System showing cash withdrawing process.
8. Draw an E-R diagram for the following scenario:

Consider a bus ticketing system that records information about passengers, bus and route. Passenger is assigned to a bus to travel on route. A bus contains many passengers, and passengers can be assigned to only one bus. Many buses travel on the same route, but a bus can travel on one route. The attribute of passenger and pid, gender, phone; similarly, bus has reg. color whereas route contains rid, distance, rate.

9. Prepare the activity schedule, Gantt chart, and Critical path using MS Project.

Task Name
SDLC
Phase 1: Initiation
Project planning
Feasibility study
Phase 2: Requirement Analysis
Requirement gathering
Requirement documentation
Requirement approval
Phase 3: System Design
System architecture

design
Database design
UI design
Phase 4: Development
Frontend development
Backend development
Integration
Phase 5: Testing
Unit testing
Integration testing
System testing
Phase 6: Deployment
Deployment setup
User training
Phase 7: Maintenance
Bug fixing
Updates

PROJECT GUIDELINE: -

1. Cover Picture
2. Acknowledgement
3. Abstract
4. Table of content
5. List of tables
6. List of figures

7. List of abbreviations
8. Chapter 1: Introduction of your Project
 - Problem statement
 - Objective
 - Scope and limitations
9. Background Study and Literature Review.
10. System Analysis
 - Requirement Analysis
 - Functional & Non-Functional Requirement (Feasibility Study)
11. System Design
 - a. System architecture
 - b. Sequence Diagram
 - c. Activity Diagram
 - d. DFD up to level 1
 - e. E-R diagram
12. Implementation and testing
 - a. Tool used
 - b. Testing details (theory for your project)- unit, integration & System testing
13. Conclusion and recommendations
 - a. Conclusion
 - b. Recommendation
